

Dual Metal Halide for Enclosed Luminaires

Dual metal halide lamps give a white light and have high colour rendering ability. Tubular clear lamps are more commonly used in floodlighting applications, where as elliptical coated lamps give less glare and are more suited to industrial area lighting. These lamps are both Son and Mercury control gear compatible.

- UV stop glass
- Metal halide lamps require enclosure with cover glass
- GES-E40 cap

Product Code	Watts (W)	Operating Position	Colour Rendering Index/Group	Colour Temp (K)	Circuit Type	Initial Lumens		Average Rated Life (hrs)	Energy Rating	Order Qty	
						Circuit Type	Mercury				
Elliptical Coated Single Carton											
MHE250WGESDU4K	250	Univ	70/2B	3800	SON/ Mercury	24000	19000	10000	SON MER	A+ A	12
